# PAPER ANIMATION

robives.com

robives.com (cc)

robives.com has all sorts of animated paper models for you to download and make

A few of them are shown here.

All the models come with full illustrated instructions for construction. Print out the parts onto thin card, cut out with scissors or sharp knife then glue together with white school glue. (PVA)

There are loads of models to choose from on the website. Most are in the shop but there are also many projects to choose from in the blog.

Choose your favourite models then download them using this voucher.
